IN DEDICATION

RUTH O'NEAL

Traditionally, the dedication of the "Gray Matter" has gone to a member of the faculty who has demonstrated excellence in teaching and dedication to students. Dr. Ruth O'Neal has shown us, the class of 1982, how to be competent, caring, and dedicated physicians. We are proud to dedicate this edition of the "Gray Matter" to her.

IN MEMORIAM

JAMES A. HARRILL, M.D.
1909-1982

Dr. James A. Harrill, a member of the medical school's original faculty, died March 16, 1982 at Baptist Hospital. He was 72. Dr. Harrill was born in Mooresville, N.C. He received the B.S. degree in 1931 and the B.S. degree (medicine) in 1933 from Wake Forest College. He received the M.D. degree from the University of Pennsylvania School of Medicine in 1935 and completed his residency training at Kings County Hospital, Brooklyn, N.Y.

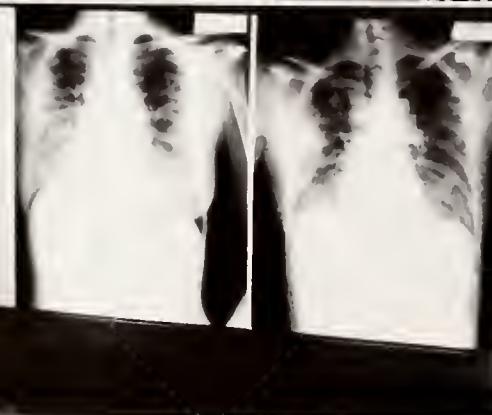

Dr. Harrill was one of 12 physicians practicing in Winston-Salem who joined the Bowman Gray faculty in 1941 when the school was moved here and expanded to a four year medical school. He was the first head of the medical school's Section on Otolaryngology, a position he held for 38 years before relinquishing his administrative duties and being named professor emeritus in 1979.

During his career at Bowman Gray, Dr. Harrill became nationally recognized as a leader in his field. He served as president of the American Laryngological, Rhinological and Otological Society, president of the Society of University Otolaryngologists, president of the North Carolina Eye, Ear, Nose and Throat Society, and director of the American Board of Otolaryngology. He also held offices in the American Broncho-Esophagological Association.

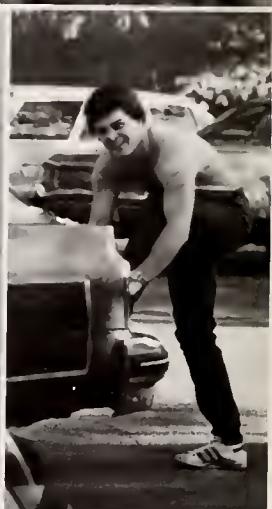

Noted as a clinician and teacher, he developed the residency training program in otolaryngology that continues to be highly regarded. Dr. Harrill will be remembered by all who had the privilege to work and learn under his guidance.

Fly Piedmont From The Piedmont.

If you're wondering which airline is the Piedmont's best airline, we'd be more than happy to give you a few hints.

One, this airline gives the Triad more flights to choose from, every day, than all other major airlines combined.

Two, it's the airline with nonstops to twice as many cities.

Three, it has more no-change service than any other airline.

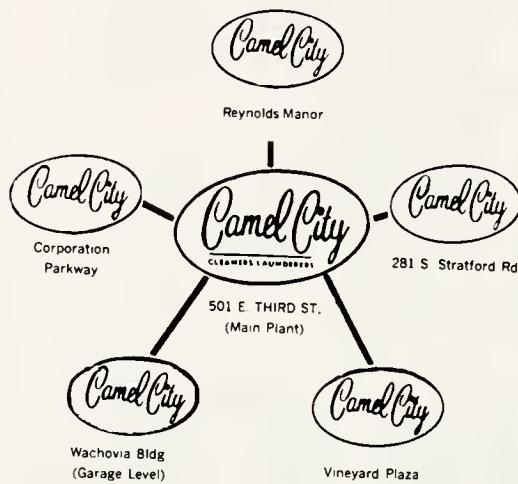

And, four, it has the fastest service to cities like Boston, Philadelphia, Tampa, Denver, Houston, and Dallas/Ft. Worth.

Piedmont. More Flights Daily From The Triad.

INTRODUCING THE SAVIN 880. XEROX WILL PROBABLY BUY ONE BEFORE YOU DO.

Why should Xerox be in such a rush? Wouldn't you want a closer look at the newest generation of the copier market?

The Savin 880. A new generation of copiers. Again. With a micro-processor that controls an electronic digital system and a Copy Memory that lets you interrupt a long run with a short one.

Electronic self-diagnostic display for improved serviceability.

Electronic paper selection from two newly designed paper trays. Each holding 300 sheets of letter, legal, even computer paper.

The 880 makes 30 copies a minute, and has document feed capability. First copy time: an incredible 4.3 seconds. And it's quiet. So quiet, in fact, that the sound of the 880 made the last generation of Savins the success story of the seventies is still going strong for the 880 generation: electronic brain, short paper path, liquid toner technology, energy-saving automatic sheeting!

The revolutionary copiers that are winning over big business.

HIPPOCRATIC OATH

"I swear by Apollo, the physician . . . to consider dear to me as my parents him who taught me this art; to live in common with him and if necessary to share my goods with him; to look upon his children as my own brothers, to teach them this art if they so desire without fee or written promise; to impart to my sons and the sons of the master who taught me and the disciples who have enrolled themselves and have agreed to the rules of the profession, but to these alone, the precepts and the instruction. I will prescribe regimen for the good of my patients according to my ability and my judgment and never do harm to anyone. To please no one will I prescribe a deadly drug, nor give advice which may cause his death. But I will preserve the purity of my life and my art. I will not cut for stone, even for patients in whom the disease is manifest; I will leave this operation to be performed by practitioners. In every house where I come I will enter only for the good of my patients, keeping myself far from all intentional ill-doing and all seduction, and especially from the pleasures of love with women or with men, be they free or slaves. All that may come to my knowledge in the exercise of my profession or outside of my profession or in daily commerce with men, which ought not to be spread abroad, I will keep secret and will never reveal. If I keep this oath faithfully, may I enjoy my life and practice my art, respected by all men and in all times; but if I swerve from it or violate it, may the reverse be my lot."

ACKNOWLEDGMENTS

We would like to express our gratitude to all those persons who contributed their time and talents into this book. We appreciate the time and patience of J. B. Edwards whose assistance was invaluable; To Mr. Bill Hunter for the beautiful job he did on the cover; Jack Dent and Paris Kirkland in the A-V Department for printing all those pictures; To Lynn Snyder and Marti Lantelme in the Office of Student Affairs for tolerating our intrusions; To Dr. O'Neal for supplying the photos of the 40th Anniversary; To John May for keeping the Yearbook afloat while I was away. A very special thanks to Martha Urbanik for her sympathetic ear, her Medical (School) knowledge, and our weekly rendezvous'. And everyone else who worked so hard to put The Gray Matter together, especially Philis, who endured the mess and inconvenience for four years. Thank-you.
